Tsimshian Treasures:

The Remarkable Journey of the Dundas Collection

Published to coincide with a national exhibition tour, this stunning catalogue celebrates the October 2006 acquisition at Sotheby's, and return to Canada, of 36 masterpieces of Tsimshian art collected by Reverend Robert Dundas in British Columbia more than 140 years ago.

Published by Douglas & McIntyre and Donald Ellis Gallery, the catalogue features over 50 full colour plates and essays by Allan Hoover, Steven Brown and Sarah Milroy on these masterworks of Northwest Coast art, and honours an extraordinary moment in Canadian cultural history.
